### AIM NEWS

#### **Tell Us What Financial Support You Need – Charity Finance Group And AIM Want To Help**

At AIM, we are currently getting ready ahead of launching our new partnership with the [Charity Finance Group](#) to benefit all AIM members across the UK. The Charity Finance Group was founded in 1987 and is the charity that champions best practice in finance management in the voluntary sector.

This new partnership – which will officially be launched at our National Conference in June – will mean that AIM members can take advantage of a range of CFG membership benefits at no extra cost.

We want to hear from our members about the type of financial help that this partnership will provide, so if you have any thoughts or questions, please email: <mailto:sassy@aim-museums.co.uk?subject=>

Ahead of the partnership launch, we spoke to Andrew O'Brien, Director of Policy and Engagement at the Charity Finance Group, to find out more about CFG and how they will be supporting our members. [Read his article here to find out more.](#)

#### **New Standard For Museum And Gallery Buildings**

Chris Woods, Director of The National Conservation Service, has written a guest blog for AIM about the new standard for museum and gallery buildings - EN 16893:2018. You can find it on our website at: [New Standard For Museum And Gallery Buildings](#)
